

Prog. lang
 C++ → partially OOPS
 C → not OOPS
 Python → OOPS
 JS → object based
 Java → OOPS

OOPS Paradigm
 ↳ object oriented Programming

↳ 4 pillars
 { Encapsulation } → class
 { Inheritance } → class
 { Polymorphism } → class
 { Abstraction } → class
 (data privatization) → class

↳ Blueprint / Template of objects

↳ Prototypes

ES5
 Prototypes

ES6
 ↳ class, objects
 ↳ syntactic sugar coated syntax of Prototypes

Inheritance

↳ assets, family features, habits.
